The amendment filed October 17, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "The active agent or agents may, for example, be administered in a food product or beverage" (page 9 of the specification).

Applicant is required to cancel the new matter in the reply to this Office Action.

Claims 60-62 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology "administered in a food product or beverage" (claims 60-61) and "by oral ingestion" (claim 62) was not described or suggested by the specification as originally filed.

Applicant's arguments filed October 17, 2003 have been considered but have not been found persuasive.

Example on page 24 of the specification is limited to administration of sarsasapogenin in a feed. None of the claims are limited to the administration of sarsasapogenin. Since applicant contends that smilagenin and anzurogenin are structurally dissimilar from sarsasapogenin, it cannot be determined from the specification if the compounds encompassed by the instant claims can be administered in a food product or beverage..

Claims 33-36, 47 and 58-62 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding the claims, the phrase "including" (claim 1) renders the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

The term "SDAT" (claims 36 and 47) has not been defined.

Claims 37-~~40~~⁴¹ and 48-57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
